

REQUEST FOR INFORMATION (RFI)

ABC Tower Project

Project Name	ABC Tower Project	Project Code	ABC-TWR
Document Type	RFI	Discipline	Civil
Document Number	RFI-CIV-003	Revision	0
Document Title	Clarification Required for Retaining Wall Waterproofing Detail	Submission Date	20-06-2026
Submitted By	ABC Contractor LLC	Status	Submitted for Clarification

RFI Description

Please clarify the approved waterproofing detail and protection board requirement for the retaining wall area at gridline C/4 to C/8. The current IFC drawing reference shows a typical detail, but the site condition requires confirmation of lap length, termination bar location, and protection screed thickness before execution.

Reference Documents

Reference Drawing	ABC-TWR-CIV-DWG-112
Specification Section	Civil Works - Waterproofing
Required Response Date	27-06-2026

Contractor Question

Kindly confirm the final detail to be followed for retaining wall waterproofing including membrane overlap, termination method, protection board thickness, and inspection hold point requirement.
